WORK HISTORY

Software Developer

ULYSSES SYSTEMS | SEP 2017 - MAR 2019

- Developed a Project (Overlay) which is an ambitious upcoming project of Ulysses. It can be seen as a **knowledge management application** for any domain that is armed with path breaking **AI facilities** that aim to revolutionize how knowledge management used to be.
- Two domains that I participated in are:
 - Emergency Response System for Schools
 - Excursion Assistant
- Collaborated with designers, business analysts and other developers to **develop** and **deploy** applications.
- Wrote **efficient, well-designed code** and maintained software documentation.

Professional Level Instructor

WHITEHAT JR. | JAN 2020 - PRESENT

- Instructing students in **programming principles**, concepts, and in-depth subject matter for trending web and mobile based technologies.
